Hi - I just got off phone with JC - after back and forth all morning -I had to get my tire plugged and I couldn't talk to him there - he is so hard to understand - I came back to house to call him in quiet and so I could type and back and forth again BUT FINALLY - he said he has seen horse play but nothing that would be considered inappropriate - he has no proof nor seen anything between SH and TW and I need to talk to Buckmaster about why he quit - but I can't reach him so.....

Very long call for no more than what I got out of him that I needed....these ppl can TALK!!!!

So you tell me - you are the boss - the others might call me back too or they might not - I tried catching them early...

I need a nap!

Thank you,

Hi Terri,

What did you decide to do today?i think you may have to bite the bullet and go investigate because who knows if they'll call you back.
